

## CAREER

*Our Institution, Maryam Ajmal Women's College of Science & Technology responds to the needs of students by encouraging their educational success and personal growth. The counselors are professionals trained to provide a variety of confidential counseling services.*

*It is an institution where innovation and excellence are part of the curriculum. In our quest to be recognized as one of best learning and efficient institutions, we are committed to attracting the most talented, skilled faculty members, and providing them with the environment to succeed. It's an energetic, supportive place to grow and develop the career.*

*Our Institute recognizes that the foundation for serving humanity is an environment where your work is supported by mutual respect and shared accountability. That's why we strive to provide a workplace that promotes the professional and personal growth of all our employees.*

*Our mission is to spread knowledge and also apply for providing benefits to our society and global communities.*
